OBJECTIVE

Civil Engineering graduate seeking an entry-level Quantity Surveying or Cost Engineering role to apply skills in cost estimation, quantity take-off, and construction documentation to support project cost control and planning.

EDUCATION

Bachelor of Science in Civil Engineering

Technological University of the Philippines - Taguig | Graduated : 2025

Senior High School (STEM)

Olivarez College | Graduated: 2020

INTERNSHIP

Civil Engineer Intern (May 2025 - July 2025)

XSTRUCTURES - Ortigas, Pasig City

- Designed a small-scale building model for shake table testing and prepared a technical report assessing its performance without seismic isolation components.
 - Attended and observed software training seminars conducted by the company.
 - Built and assembled scale models for simulation and demonstrations.
 - Assisted in preparing marketing materials for company events.
-

TECHNICAL SKILLS

- AutoCAD (2D drafting & basic plan interpretation)
 - Microsoft Excel (basic cost computation & data tracking)
 - STAAD.Pro (introductory structural analysis)
 - Bluebeam Revu (basic PDF markup & drawing review)
 - Quantity take-off from construction drawings
 - Basic BOQ interpretation and understanding
 - Cost estimation fundamentals
-

CORE COMPETENCIES

- Quantity surveying fundamentals
 - Cost estimation awareness
 - Material quantity analysis
 - Engineering documentation
 - Drawing interpretation & markup
 - Data organization & reporting
-

LANGUAGES

English | Tagalog
